

International Efforts

The Federal Government and international partners will work together:

- ♦ **To assist countries at risk to build and improve infrastructure at the central, provincial and local levels**
- ♦ **To assist at-risk countries to establish surveillance capabilities**
- ♦ **To work with the World Health Organization (WHO), the International Partnership, and through diplomatic contacts to support a coordinated response by the international community in support of national efforts**
- ♦ **To work with the WHO and international partners to coordinate public communications within and between countries during an outbreak**
- ♦ **To assist U.S. citizens traveling or living abroad**
